HYPER MEGA TECH: FIRMWARE UPDATER

How to Run the Updater for Windows
## STEP BY STEP GUIDE

Note: It's highly recommended/required you install the following update from Microsoft here before running the updater:

Download x64 to run desktop apps: https://dotnet.microsoft.com/en-us/download/dotnet/3.1/runtime?cid=getdotnetcore&os=windows&arch=x64

A lot of users will already have this installed however you might not especially if it's a new copy of Windows.

Run desktop apps
Do you want to run a desktop app that uses .NET Core on your Windows computer? Install the .NET Core Desktop Runtime.
Download x64   Download x86

1 You will see these windows when you complete this update.

Installation was successful
The following was installed at
- Microsoft Windows Desktop Runtime - 3.1.32 (x6

Install   Close

2 Download the Update Installer - Unzip the folder to your desktop:

https://blaze-evercade.com/Firmware/Pocket_FirmwareUpdater_1.1.0-win_x64.exe.zip

3 Open the folder and run "**Super_Pocket_Update_Firmware_1.1.0-win.exe**".

**4** This window might pop up, click "**more info**" and click "**Run anyway**".

Windows protected your PC
Microsoft Defender SmartScreen prevented an unrecognised app from starting. Running this app might put your PC at risk.
Application: UNOBF_Pocket_FirmwareUpdater_1.1.0-win_x64.exe
Publisher: Unknown publisher
Run anyway   Don't run

5 Select what device you want to update.

Select your Pocket to update...
CAPCOM EDITION   TAITO EDITION

6 You likely need to install or reinstall the driver. Press the "**(RE)INSTALL DRIVERS**" button, allow "**DriverInstaller.exe**" to run.

Driver Missing!
Please press the button below!
(RE)INSTALL DRIVERS

7 You will then see the image below.
Note: When following the instructions and the BLAZE ENTERTAINMENT logo displays whilst connected to the device and you are holding Vol Up. Turn off the Super Pocket and turn it back on whilst still holding Vol up. (It might take a few tries so don't worry!).

1. Connect your Pocket to your device
2. Press and hold the VOLUME UP button
3. Keep holding VOLUME UP and switch on your Pocket

8 Once the updater is finished, your Super Pocket should automatically restart!

Success!
Unplug your Pocket and enjoy your shiny new firmware!

9 You can now close the program, unplug your Super Pocket and enjoy!
